SIX MONTHS IMPRISONMENT

Penalty Costa Received at
the Hands of Judge
Robertson.

This morning Judge Robertson scored Manuel Costa before imposing upon him the penalty of six months' imprisonment and the costs of the suit for violation of Edmunds Act with Isabella Raposo.

"The evidence in this case shows," said the Court, "that at the time you met this woman she was living happily with her husband. She left him and obtained a divorce for you, and then when you had been intimate with her for several months, were tired of her and wished to rid yourself of her, she attempted suicide by taking carbolic acid. Your wife must also suffer as is the case when the guilty are punished, some innocent one must also bear suffering."

"To the original crime of adultery you added perjury here on the stand." The Court said that if the defendant had pleaded guilty and thrown himself on the mercy of the court that he might be inclined to deal leniently with the defendant, but adding perjury to the charge on which he was being tried made matters worse. He then sentenced the prisoner to six months and costs of the suit.

Attorney Andrews made a strong plea for clemency and again brought up the charge that the prosecution was brought in a spirit of revenge.

In replying Rawlins said that it was not the practice of the office of the prosecuting attorney to lend itself to the settlement of feuds between private parties.

TOYO OFFICIALS GIVE BANQUET

Japanese Newspapermen Are
Invited as the Guests
of Honor.

Vice President Okawa and General Manager Shirashi of the Toyo Kisen Kaisha, who arrived in the Nippon Maru from San Francisco last Monday, will give a banquet to the local Japanese newspapermen tonight at Shintei-ten Club on Vineyard street.

Since their arrival they have been entertained by their fellow country men, residing here. The banquet is an invitational affair.

During the banquet it is expected that the two officials of the Toyo line will speak to the kamae Japanese on the advisability of establishing an independent steamship agency here in Honolulu. Hackfeld & Co. are looking after the steamship affairs of the Toyo Kisen Kaisha line.

Lee Sa Kee is on trial today before Judge Robertson in Federal Court, charged with violation of the Edmunds Act, the woman in the case being one Dai Fook Tai.

The jury drawn to hear the testimony is composed of D. F. Thrum, C. T. Littlejohn, P. F. Ryan, D. J. Cashman, O. Omsted, A. Karrant, S. C. Baldwin, M. C. Pacheco, P. McGrath, L. M. Whitehouse, G. T. Kluegel and G. Gonzalez.

Attorney Magoon is representing the defendant and also Dai Fook Tai, who will be tried on the same charge at the conclusion of the present trial.

COLONEL S. P. COLT MAY BE NEXT U. S. SENATOR.

COL. SAMUEL P. COLT

NEWPORT, R. I., Aug. 29.—That Colonel Samuel P. Colt of Bristol, head of the rubber trust, is to be endorsed by the Republicans to succeed Senator Nelson W. Aldrich is stated here on high authority. Four years ago Colonel Colt declined an election by the state legislature, but it is thought that he will take the place in the upper house of congress if it is again offered him. Senator Aldrich has announced his retirement, to take effect next March, when his present term expires.

METEOR HITS OREGON

Visitor From Heavens, said to Be 100 Feet in Diameter, Lands Near Portland.

PORTLAND, Sept. 4.—A meteor, estimated to have been at least 100 feet in diameter, sailed across the Willamette valley shortly after noon today, and is believed to have plunged into the earth west of McMinnville, Yamhill county. It was seen in the southwest by a number of persons in Portland, and at the same time by P. L. Ambler, postmaster at Mount Angel, 32 miles distant, and also by several persons at Salem, more than 40 miles from Portland.

All descriptions coincide. Because it was viewed from the three points simultaneously, J. W. Daniels, head of the astronomical department of Hill Military Academy, declares it to have been of immense size and at least five miles above the earth when seen. It is expected the Smithsonian Institution will begin a search for it.

Those who saw the visitor declared it was nearly round, with a long tail. All agreed that the tail wriggled violently in its flight. From Portland a trail of smoke could afterwards be discerned.

A new machine separates the whites and yolks of opened eggs by allowing the former to pass through a screen and automatically rejects the yolks, which will not separate, their weight tripping a bar.

WHOLE TOWNS DESTROYED BY FOREST FIRES IN FOUR NORTHWESTERN STATES.

SPOKANE, Wash., Aug. 28.—In four states of the northwest great forest fires raged, in which millions of dollars' worth of property have been destroyed, to say nothing of scores of persons burned to death. The area burned over embraces more land than the states of Vermont, New Hampshire, Rhode Island and New Jersey. A half dozen towns have been literally wiped off the map, and dozens more imperiled. Governor Norris of Montana left the capital and went to Libby to take personal charge of the combat against the flames. Previous to his departure he received repeated calls for more troops from the different military reservations of the state, but he decided to take no action on the various petitions until he has made a personal investigation of the situation. Flashes issued from the eastern limits of Yellowstone Park, and to the northwest the town of Northport was abandoned. Great Falls and Helena were within a few miles of the threatening blaze, and further west Missoula housed thousands of refugees from the burned districts. The famous Coeur d'Alene district, the scene of its early riches, is devastated. Many of the most valuable mining properties have been destroyed, including the towns of Shoshone, Dunsmuir, and several smaller places. In southern Oregon new destroyed great stretches of timber within the Klamath and Umpqua lake reservations, and even Jackson Oregon is facing its doom as timber with fire.
